

ART CAN HEAL

With **you** art can change a life.

Amanda Harmer helps run an Allied Arts-funded program that incorporates the arts into treatment plans for Alzheimer's patients and others facing long-term hospitalization, using painting, sculpting and more to help people heal.

When you give to Allied Arts, you're giving to more than 40 local agencies that, together, reach about a **million people each year**. We help fund initiatives that use art to help people in need and strengthen Oklahoma communities.
